

The IDEAHL consortium is happy to invite you to the workshop

Health Literacy through the ethics lens

23 November, 10 CET

In IDEAHL we are working to address and define the main dimensions and related approaches that policy makers, educational organizations, health and social care managers should take into account during the planning and the implementation of (d)HL strategies at country level towards citizens in general and, especially, the ones at main risk of exclusion.

To this aim, we must ensure relevant ethics, privacy, gender, equity and other challenges are considered during the development of the EU Strategy for improving (d)HL.

In this webinar we will present you with **3 AREAS** and immerse you in an interactive stakeholder workshop:

AGENDA

- 10:00 Opening and welcome
- 10:05 Introduction to IDEAHL
- 10:15 Framework and objectives of the workshop
- 10:25 Jamboard tool
- 10:35 Plenary discussion
 - 10:35 Gender
 - 11:00 Inclusion
 - 11:25 Ethics & Privacy
- 11:50 Conclusions
- 12:00 Closure

**Funded by
the European Union**

The project “Improving Digital Empowerment for Active Healthy Living (IDEAHL)” has received funding by the Horizon Europe Framework Programme under GA 101057477
