

Online Workshop

Is the Future of Port Systems Still Green?

Balancing Decarbonisation, Competitiveness and Skills in
the Adriatic-Ionian Macroregion

27th June 2025 - h. 11:00

Join the workshop at [this link](#)

Join us to explore how **evolving EU and global frameworks**—like the Clean Industrial Deal, Net-Zero Industry Act, and IMO Net-Zero Framework—are **reshaping port systems in the Adriatic-Ionian region**.

Together, we will uncover how **climate neutrality** can **drive competitiveness**, **tackle key barriers**, and **reimagine sustainable and resilient “green ports”** by 2050.

AGENDA

11:00 Welcome speeches

- **Pierluigi Coppola**, *EUSAIR Pillar II “Transport” Coordinator*
- **Carlo Fortuna**, *Programme Manager Central European Initiative*

11:15 Prequel and sequel of the analysis

- **Andrea Ballarin**, *Consultant at Central European Initiative*

11:30 EU decarbonisation policies for ports: ETS, Fuel EU and IMO Regulation

- **Peter Czaga**, *Policy Officer at European Commission, DG MOVE - Unit D1 – Maritime transport and logistics*

11:45 Green transition: ports’ perspective

- **Isabelle Ryckbost**, *Secretary General ESPO*

12:00 Port Energy Transition Masterplan: A Roadmap to Greener Fuels & Energy in Ports

- **Reza Karimpour**, *Technical Manager, SEANERGY Project, Senior Consultant (Mobility & Transport), Magellan Circle*

12:15 The EUSAIR point of view: the *Green and Smart Ports Paper*

- **Giuseppe Siciliano**, *Senior Manager at PTSCLAS*

12:30 Wrap-up and conclusions

- **Carlo Fortuna**, *Programme manager Central European Initiative*

Q&A Session

Andrea Ballarin, *Moderates*
