PROGRAM OF

Sustainable energy systems for CEE countries – modelling and cooperation

Workshop

DATE: 3rd of November 2016.

VENUE: K11 Art and Cultural Centre, Budapest (Budapest, Király str. 11. - [map](#))

9:00 Registration

9:30 Greetings and professional introduction

Heinz-Peter Behr, Ambassador of Germany to Hungary

Orsolya Fülöp, Energiaklub, policy director

Benedek Jávor, European Parliament, member of Greens/EFA

9:45 **I. The role of alternative energy planning and modelling in sustainable energy transition - methods and good practices**

In the first section of the conference we provide European examples to learn from. At first, the Hungarian This way ahead! research group and the authors of the Alternative and Sustainable Energy Scenarios for Hungary will present their alternative energy models. Afterwards, Danish methodology of energy modelling and the main results of the German Energiewende will be presented.

Béla Munkácsy, Eötvös Loránd University, Hungary

Orsolya Fülöp, Energiaklub, Hungary

10:35 coffee

Poul Alberg Østergaard, Aalborg University, Denmark

Christian Redl, Agora Energiewende, Germany

11:50 Q&A

12:00 Lunch

13:00 II. Alternative energy strategies in CEE countries

In the afternoon program, experts from Croatia, Macedonia, Serbia and Kosovo will present their alternative energy models and their experiences with the uptake of their findings in national and international strategies and policies.

Neven Duic, International Centre for Sustainable Development of Energy, Water and Environment Systems (SDEWES), University of Zagreb, Croatia

Garret Tankosić-Kelly, South East Europe Sustainable Energy Policy (SESEEP), Serbia

Nevena Smilevska, Eko-svest, Macedonia

Leartha Hollaj, Institute for Development Policy (INDEP), Kosovo

14:00 Q&A

14:15 coffee

14:30 III. Synchronise efforts for the European success - reflections from regional experts and preparation of a common macro-regional modelling initiative

This session will provide rooms for reflections, especially regarding the opportunities for cooperation in energy modelling and strategy planning with a focus on the CEE region.

moderator: Benedek Jávör

József Feiler, Climate Foundation, Hungary

András Krolopp, The Nature Conservancy Europe, Germany

László Szabó, Regional Centre for Energy Policy Research (REKK), Hungary

15:30 Summary and final words

Benedek Jávör

Orsolya Fülöp
